

Steridine® Multi Surface

Cleaning and disinfection of all types of surfaces in a medical environment.
Including floors, walls, medical equipment etc...

- Very economical dilution from just 0.25%
- Perfect synergy of detergent and disinfectant properties
- Excellent compatibility with a wide range of materials
- Rapid action - effective from 5 minutes
- Fresh citrus fragrance
- Leaves no residues or smearing
- Not classified dangerous for the environment when diluted

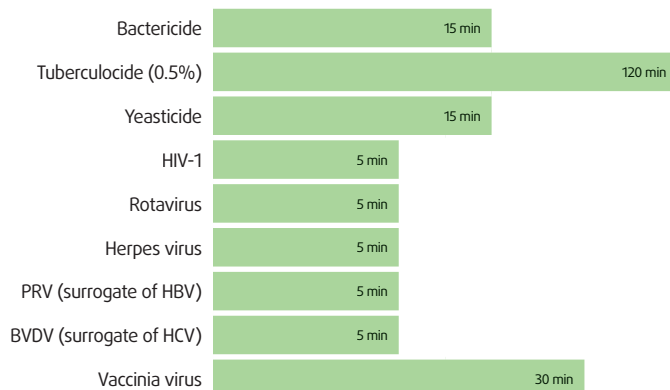

Conforms to European standards

Bactericide: EN 13727, EN 13697
Tuberculocide: EN 14348, EN 14563
Yeasticide: EN 13624, EN 13697
Active on viruses according to EN 14476

Product composition

N-(3-aminopropyl)-N-dodecylpropane-1,3-diamine (CAS N° 2372-82-9: 54 mg/g), Didecyltrimethylammonium chloride (CAS N° 7173-51-5: 30 mg/g), excipients.

Efficacy

The Robert Koch Institute recommends the use of disinfectants claiming limited virucidal activity to interrupt the infection-chain. According to the RKI, limited virucidal activity (effective against enveloped viruses) corresponds to an activity against Vaccinia virus and BVDV.

Physical data

Colour: Green
 Perfume: Citrus
 pH: 8.5 when diluted at 0.25% / 10.8 undiluted
 Container: Made of recyclable HDPE material

Packaging

12 x 1L ref. TE01010
 2 x 5L with 1 x 25ml pump ref. TE01014

Precautions

Dangerous – respect the precautions for use (established according to the European regulations in force for classification and labelling of chemicals). Use biocide products with precaution. Before each use, read the label and the information concerning the product. Storage between +5°C and +35°C. Biocidal product intended for the disinfection of surfaces in contact or not with foodstuffs (Group 1 – PT2 & PT4). Reserved for professional use.
